BOY SCOUTS OF AMERICA®
NEVADA AREA COUNCIL

8 October 2013

Dear Leader,

We are writing you to personally invite you to attend Camp Fleischmann with your unit next summer. 2012 and 2013 have proven to be banner years for camp and we are already putting plans into place to make sure that 2014 is an even better summer.

Specifically we are making great progress in developing a new high adventure program for next summer. This program will be open to boys who are 13 years or older. The scouts will traverse the Bizz Johnson Trail on an overnight bike trip. At mid-week the boys will explore Lake Almanor on a luxury 25' Bennington Pontoon boat complete with swim deck and ladder and of course water toy to tow behind the boat. The scouts will also have the opportunity to explore the backcountry of Lassen Volcanic National Park on an overnight backpacking expedition. We are developing this program to provide an opportunity for your older scouts who may not be interested in merit badge course work anymore and are looking for a new adventure. This program may be attended solo; we will compile multiple scouts to form a trek crew. We need at least one adult per trek, maximum of three. The cost for this adventure is $300 per person which is comparable to a regular week of camp.

Our commitment to you at camp is to provide a top of the line camp staff, provide multiple opportunities for boys to not only earn merit badges but also retain what was being taught, provide satisfying food service, and give your unit a summer camp experience that will be talked about for years to come.

We are available to arrange a camp promotion visit to your unit. Please contact us with any questions. As Lord Baden-Powell said, one week at camp is the equivalent to a whole year of weekly unit meetings. How can we help build the Scouting spirit in YOUR unit?

Yours in Scouting,

Eric Maass
