Click on Hobart Campground (http://dickasmith.homeip.net/NSDFrame/Dispersed/Hobart/index.html) to see information. High clearance 4X4 is necessary and you must pack your equipment in 0.71 miles to camp overnight. This is where the value of the patrol method can be experienced most readily. There is a 1.7 mile road that is gated where you could use a cart to get your equipment in. Here is some training info (http://dickasmith.homeip.net/NSDFrame/Training/index.html) that might help.
